

Searching Hosted Catalogs

If you have a list of items that you need to purchase from a specific hosted catalog vendor, you can search for all items without having to return to the home/shop page. In this example, I have a list of supplies that I need to order from VWR.

1. Start by clicking the hosted vendor's logo on the home/shop page.

2. You can either enter your first item here and click Search, or just click Search and filter from there. I choose to just click Search.

3. If you have a part number, enter it in the **Add Keywords** text box and click **Go**. (Example: Part# 14227-912 is a part number for a specific supply and will return only that specific item)
